

## HOW IT WORKS

# Your mobility, step by step

1

### Before arrival

Tell us about your school, participants, professional sectors and learning objectives. We build the programme around your needs.

2

### Arrival & Welcome

We arrange airport transfers, welcome participants at their accommodation and introduce them to the Lexema team.

3

### Start of the Mobility

Participants are introduced to their host organisations and tutors, with our team supporting them during the first steps of their experience.

4

### Monitoring & Support

We follow the mobility throughout the stay, keeping in contact with participants, tutors and accompanying staff.

5

### Final certificates & documentation

At the end of the programme, we support the completion of certificates and mobility documentation.

## GET IN TOUCH

# Let's plan your group's mobility

Tell us about your school, participants, dates, sectors and project objectives. We'll create a programme tailored to your group.
